

Special Session on Communication Engineering and Information Technology

The main objective of the session is to present, and provide an open forum for discussing, the current, latest advances, developments and applications in communication engineering and information technology and bring researcher and experts to discuss and share their studies, results, conclusion and experience. Topics of interest include, but are not limited to:

- communication system
- Telecommunication Engineering
- Optical Fiber communication
- Communication Network Analysis in Smart Grid
- Education and information technology
- Health care information systems and technologies
- Information privacy and digital security
- Mathematical modelling and control system
- Neural networks and fuzzy logic
- Intelligent/Adaptive Systems
- Genetic algorithms and evolutionary computing
- Fault detection and isolation
- Signal and Image Processing

Papers for the special session should be submitted as PDF attachment via email to one of the session organizers. Papers should be prepared following the template format of the conference.

Organized by

Assistant Prof. **Kenz A. Bozed**, Benghazi University, Benghazi, Libya

kenz.bozed@uob.edu.ly

Prof. **Amer R. Zerek**, Zawia University, Libya

anas_az94@yahoo.co.uk

Prof. **Youcef Soufi**, University of Tébessa, Tébessa, Algeria

y_soufi@yahoo.fr

IMPORTANT DATES

Submission Deadline

January 25, 2019

Authors Notification

February 25, 2019

Final Manuscript due

April 15, 2019
